

Circle The Biggest Number

For the double digit number we will always see the number at 1st place.

For Example: 67 and 87 (Here 8 is bigger than 6 so 87 is the bigger number.)

In case both the 1st numbers are the same, then we see the number at 2nd place.

For Example: 39 and 37 (Here 9 is bigger than 7 so 39 is the bigger number.)

Q: Circle the number that is bigger.

56 . 65	18 . 14	76 . 35
11 . 33	49 . 43	24 . 76
44 . 32	87 . 67	95 . 80
64 . 52	41 . 61	61 . 34
81 . 91	36 . 17	58 . 24
36 . 43	88 . 58	15 . 16
