

# Alphabetical Order

Alphabetical order is a system whereby character strings are placed in an order based on the position of the characters in the conventional ordering of an alphabet.

Circle the word that comes first in alphabetical order.

spoon      ant      jug      ink

cap      ball      zoo      rose

door      jaw      ear      fan

lion      pen      key      watch

plug      tiger      ship      toy

leopard      remote      van      gun
